

## Commvault Announces Fourth Quarter Fiscal 2026 Financial Results

April 28, 2026

*Achieved all fourth quarter and fiscal 2026 guided metrics*

*Record \$132 million free cash flow in fourth quarter*

*Total reported ARR grew +21% year over year, with \$44 million in constant currency net new ARR*

Tinton Falls, N.J., April 28, 2026 /PRNewswire/ -- Commvault [Nasdaq: CVLT] today announced its financial results for the fourth quarter and fiscal year ended March 31, 2026.

"Our results reinforce that we are delivering durable growth fueled through industry-leading innovation and our rapidly expanding SaaS business," said Sanjay Mirchandani, President and CEO, Commvault. "In fiscal 2027, the rise of AI will create more data and more risk – which in turn increases demand for our platform's trusted protection, governance, and recovery capabilities. We believe we are well positioned to deliver profitable growth through new and expanding customer relationships."

*Notes are contained at the end of this press release*

### **Fourth Quarter Fiscal 2026 Highlights -**

- Total revenues were \$312 million, up 13% year over year
- Subscription revenue was \$208 million, up 20% year over year, inclusive of term-based license revenue of \$114 million, up 6% year over year, and SaaS revenue of \$93 million, up 43% year over year
- Income from operations (EBIT) was \$17 million, an operating margin of 5.3%
- Non-GAAP EBIT<sup>2</sup> was \$66 million, an operating margin of 21.3%
- Generated \$132 million in operating cash flow and free cash flow<sup>2</sup>

### **Full Year Fiscal 2026 Highlights -**

- Total revenues were \$1,184 million, up 19% year over year
- Total ARR<sup>1</sup> grew to \$1,122 million, up 21% year over year, or 18% on a constant currency basis using the March 31, 2025 spot rates
- Subscription revenue was \$768 million, up 30% year over year, inclusive of term-based license revenue of \$435 million, up 18% year over year, and SaaS revenue of \$333 million, up 52% year over year
- Subscription ARR<sup>1</sup> grew to \$989 million, up 27% year over year, or 24% on a constant currency basis using the March 31, 2025 spot rates
- Income from operations (EBIT) was \$74 million, an operating margin of 6.3%
- Non-GAAP EBIT<sup>2</sup> was \$238 million, an operating margin of 20.1%
- Operating cash flow was \$245 million, with free cash flow<sup>2</sup> of \$237 million

### **Recent Business Highlights -**

- Commvault announced an integration with Microsoft Security to better connect threat detection with trusted recovery, and expanded its integration with CrowdStrike, to deliver bi-directional visibility with CrowdStrike Falcon Next-Gen SIEM.
- Commvault and NetApp announced a strategic alliance to deliver a powerful, integrated solution for enterprise data protection and cyber resilience.
- Commvault extended identity resilience to Okta and joined forces with CloudSEK to address a growing threat: exposed credentials on the dark web.
- Commvault expanded enterprise resilience to structured and AI data, enabled via its recent acquisition of data and AI security company Satori.
- Commvault announced a partnership with STACKIT that is designed to support European customers' sovereign cloud requirements while delivering cyber resilience to enterprise organizations.

### **Financial Outlook for First Quarter and Full Year Fiscal 2027<sup>3</sup> -**

We are providing the following guidance for the first quarter of fiscal year 2027, based on the recast definitions set forth at the end of this earnings press release:

- Subscription revenue is expected to be between \$263 million and \$265 million
- Non-GAAP EBIT margin<sup>2</sup> is expected to be approximately 19%

We are providing the following guidance for the full fiscal year 2027, based on the recast definitions set forth at the end of this earnings press release:

- Subscription revenue is expected to be between \$1,115 million and \$1,125 million
- Subscription ARR<sup>1</sup> is expected to be between \$1,200 million and \$1,210 million
- Total revenues are expected to be between \$1,300 million and \$1,310 million
- Non-GAAP EBIT margin<sup>2</sup> is expected to be approximately 20.5%
- Free cash flow<sup>2</sup> is expected to be between \$250 million and \$260 million

The above guidance metrics contemplate current exchange rates and current macroeconomic conditions. In addition, guidance for Subscription Revenue and Subscription ARR reflects the recast definitions set forth in the Recast Section at the end of this earnings press release.

These statements are forward-looking and made pursuant to the safe harbor provisions discussed in detail below. We do not undertake any obligation to update these forward-looking statements. Actual results may differ materially from anticipated results.

### Conference Call Information

Commvault will host a conference call today, April 28, 2026 at 8:30 a.m. Eastern Time (5:30 a.m. Pacific Time) to discuss quarterly results. The live webcast and call dial-in numbers can be accessed by registering under the "News & Events" section of Commvault's website at [ir.commvault.com](http://ir.commvault.com) under the "Investor Events" heading. An archived webcast of this conference call will also be available following the call.

### About Commvault

Commvault (Nasdaq: CVLT) is a leader in unified resilience at enterprise scale. In a constantly evolving threat landscape, Commvault keeps customers ready by unifying data security, identity resilience, and cyber recovery, on one cloud-native, AI-enabled platform. Customers trust Commvault to conduct the fastest, most complete recoveries – not just their data, but their entire business. Purpose-built for the agentic enterprise, Commvault also enables organizations to safely embrace AI while protecting against AI-driven threats.

### Safe Harbor Statement

This press release may contain forward-looking statements, including statements regarding financial projections, which are subject to risks and uncertainties, such as those related to our restructuring plans, competitive factors, difficulties and delays inherent in the development, manufacturing, marketing and sale of software products and related services, general economic conditions, outcome of litigation and others. For a discussion of these and other risks and uncertainties affecting Commvault's business, see "Item 1A. Risk Factors" in our annual report on Form 10-K and "Item 1A. Risk Factors" in our most recent quarterly report on Form 10-Q. Statements regarding Commvault's beliefs, plans, expectations or intentions regarding the future are forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from anticipated results. Commvault does not undertake to update its forward-looking statements.

### Constant Currency - Revenue

(\$ in thousands)

The constant currency impact is calculated using the average foreign exchange rates from the prior year period and applying these rates to foreign-denominated revenues in the current corresponding period. Commvault analyzes revenue growth on a constant currency basis in order to provide a comparable framework for assessing how the business performed excluding the effect of foreign currency fluctuations. The non-GAAP financial measures presented in this press release should not be considered as a substitute for, or superior to, the measures of financial performance prepared in accordance with GAAP.

#### Use of Non-GAAP Financial Measures

Commvault has provided in this press release the following non-GAAP financial measures: non-GAAP income from operations (EBIT), non-GAAP income from operations margin, non-GAAP gross margin, non-GAAP net income, non-GAAP diluted earnings per share, non-GAAP free cash flow, annualized recurring revenue (ARR), subscription ARR, SaaS ARR and SaaS net dollar retention rate (NRR). This financial information has not been prepared in accordance with GAAP. Commvault uses these non-GAAP financial measures internally to understand, manage and evaluate its business and make operating decisions. Commvault believes that the use of these non-GAAP financial measures, when used as a supplement to GAAP financial measures, provides an additional tool for investors to use in evaluating ongoing operating results and trends, and in comparing its financial results with other companies in Commvault's industry, many of which present similar non-GAAP financial measures to the investment community. Commvault has also provided its revenues, ARR, subscription ARR and SaaS ARR on a constant currency basis. Commvault analyzes revenue growth, ARR, subscription ARR and SaaS ARR on a constant currency basis in order to provide a comparable framework for assessing how the business performed excluding the effect of foreign currency fluctuations.

All of these non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, financial information prepared in accordance with GAAP. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures, where applicable, which are included in this press release. Certain non-GAAP measures discussed in this press release do not have a directly comparable GAAP financial measure and therefore are not reconciled.

**Non-GAAP income from operations and non-GAAP income from operations margin.** These non-GAAP financial measures exclude noncash stock-based compensation charges and additional Federal Insurance Contribution Act (FICA) and related payroll tax expense incurred by Commvault when employees vest in restricted stock awards. Commvault has also excluded restructuring costs, noncash amortization of intangible assets, business combination costs, the change in the estimated fair value of contingent consideration, adjustments from the sale and leaseback of headquarters and other nonrecurring charges from its non-GAAP results. These adjustments are further discussed in the reconciliation of GAAP to non-GAAP financial measures. Commvault believes that these non-GAAP financial measures are useful metrics for management and investors because they compare Commvault's core operating results over multiple periods. When evaluating the performance of Commvault's operating results and developing short- and long-term plans, Commvault does not consider such expenses.

In addition, Commvault expects to incur a non-routine business expense in the first half of fiscal 2027 related to contingent performance-based fees associated with strategic pricing and packaging initiatives. These fees are expected to be incurred upon the achievement of defined outcomes and are estimated to range between \$5 million and \$10 million. Commvault intends to exclude these costs from its non-GAAP results as they are episodic in nature, directly tied to a discrete strategic initiative, and not reflective of ongoing operating performance.

Although noncash stock-based compensation and the additional FICA and related payroll tax expenses are necessary to attract and retain employees, Commvault places its primary emphasis on stockholder dilution as compared to the accounting charges related to such equity compensation plans. Commvault believes that providing non-GAAP financial measures that exclude noncash stock-based compensation expense and the additional FICA and related payroll tax expenses incurred on vesting of restricted stock awards allow investors to make meaningful comparisons between Commvault's operating results and those of other companies.

There are a number of limitations related to the use of non-GAAP income from operations and non-GAAP income from operations margin. The most significant limitation is that these non-GAAP financial measures exclude certain operating costs, primarily related to noncash stock-based compensation, which is of a recurring nature. Noncash stock-based compensation has been, and will continue to be for the foreseeable future, a significant recurring expense in Commvault's operating results. In addition, noncash stock-based compensation is an important part of Commvault's employees' compensation and can have a significant impact on their performance. The following table presents the stock-based compensation expense included in cost of revenues, sales and marketing, research and development and general and administrative (\$ in thousands):

	Three Months Ended March 31,		Year Ended March 31,	
	2026	2025	2026	2025
Cost of revenues	\$ 1,344	\$ 1,324	\$ 5,239	\$ 5,744
Sales and marketing	12,469	12,599	51,173	47,627
Research and development	6,977	6,225	28,538	24,028
General and administrative	8,457	8,692	33,936	31,216
Stock-based compensation expense	\$ 29,247	\$ 28,840	\$ 118,886	\$ 108,615

The table above excludes stock-based compensation expense related to the Company's restructuring activities described below in Note 7.

The components that Commvault excludes in its non-GAAP financial measures may differ from the components that its peer companies exclude when they report their non-GAAP financial measures. Due to the limitations related to the use of non-GAAP measures, Commvault's management assists investors by providing a reconciliation of each non-GAAP financial measure to the most directly comparable GAAP financial measure. Commvault's management uses non-GAAP financial measures only in addition to, and in conjunction with, results presented in accordance with GAAP.

**Non-GAAP net income and non-GAAP diluted earnings per share (EPS).** In addition to the adjustments discussed in non-GAAP income from operations, non-GAAP net income and non-GAAP diluted EPS incorporates a non-GAAP effective tax rate of 24%.

Commvault anticipates that in any given period its non-GAAP tax rate may be either higher or lower than the GAAP tax rate as evidenced by historical fluctuations. The GAAP tax rates in recent fiscal years were not meaningful percentages due to the dollar amount of GAAP pre-tax income. For the same reason as the GAAP tax rates, the estimated cash tax rates in recent fiscal years are not meaningful percentages. Commvault defines its cash tax rate as the total amount of cash income taxes payable for the fiscal year divided by consolidated GAAP pre-tax income. Over time, Commvault believes its GAAP and cash tax rates will align.

Commvault considers non-GAAP net income and non-GAAP diluted EPS useful metrics for Commvault management and its investors for the same basic reasons that Commvault uses non-GAAP income from operations and non-GAAP income from operations margin. In addition, the same limitations as well as management actions to compensate for such limitations described above also apply to Commvault's use of non-GAAP net income and non-GAAP diluted EPS.

**Non-GAAP gross margin.** Commvault defines this non-GAAP financial measure as GAAP gross margin adjusted to exclude cost of revenues related to noncash stock-based compensation.

**Non-GAAP free cash flow.** Commvault defines this non-GAAP financial measure as net cash provided by operating activities less purchases of property and equipment. Commvault considers non-GAAP free cash flow a useful metric for Commvault management and its investors in evaluating Commvault's ability to generate cash from its business operations. In addition, the same limitations as well as management actions to compensate for such limitations described above also apply to Commvault's use of non-GAAP free cash flow.

**Forward-looking non-GAAP measures.** In this press release, Commvault presents non-GAAP EBIT margin and free cash flow on a forward-looking basis. The most directly comparable GAAP measures are not accessible on a forward-looking basis without unreasonable efforts, because certain items that impact these GAAP measures, cannot be reasonably predicted or quantified. The probable significance of these items may be material, and as a result, the corresponding GAAP measures and a quantitative reconciliation to those GAAP measures are not available on a forward-looking basis.

#### Notes

1. Annualized recurring revenue (ARR) represents the annualized value of all active contracts as of the end of a reporting period. ARR includes recurring subscription offerings, customer support associated with perpetual and term licenses, enhanced customer support contracts, and managed service offerings. ARR excludes non-recurring elements, such as perpetual licenses and professional services, which are typically delivered at a point in time. For all term-based arrangements, ARR is calculated by dividing the total active contract value by the number of days in the contract term and multiplying the result by 365. For consumption-based arrangements on a pay as you go model without a fixed commitment, ARR is calculated by annualizing the revenue contractually expected to be received in a given month based on actual monthly usage from a prior month. Because ARR includes only contracts that are active at the end of the reporting period, it does not reflect assumptions or estimates regarding future contract renewals or non-renewals. Subscription ARR represents the portion of annual recurring revenue attributable to term-based licenses, maintenance and support services associated with term license arrangements, SaaS subscriptions, and consumption-based arrangements, calculated using the same ARR methodology. SaaS ARR represents the cloud-hosted portion of Subscription ARR and excludes revenue attributable to term license arrangements and related maintenance and support services.

These metrics should be viewed independently of GAAP revenue, deferred revenue and unbilled revenue and are not intended to be combined with or to replace those items. These metrics are not a forecast of future revenues. Management believes that reviewing these metrics, in addition to GAAP results, helps investors and financial analysts understand the value of Commvault's recurring revenue streams presented on an annualized basis. There is no direct GAAP comparative to ARR. See "Use of Non-GAAP Financial Measures" for additional explanation.

2. A reconciliation of GAAP to non-GAAP results has been provided in the reconciliation of GAAP to non-GAAP financial measures included in this press release. An explanation of these measures is also included under the heading "Use of Non-GAAP Financial Measures."
3. Commvault does not provide forward-looking guidance on a GAAP basis as certain financial information, the probable significance of which cannot be determined, is not available and cannot be reasonably estimated. See "Forward-looking non-GAAP measures" for additional explanation.
4. SaaS net dollar retention rate (NRR) is the percentage of SaaS ARR retained from existing customers at the start of an annual period after accounting for expansion revenue, churn, and downgrades. It is presented on a constant currency basis using exchange rates as of March 31, 2025. Acquired SaaS ARR is excluded until the acquisition is fully integrated, which we generally expect to occur twelve months from the close date. We believe our SaaS NRR offers valuable insight into the year-over-year expansion of our existing customer base, reflecting both increased utilization of current products and services as well as the adoption of additional offerings. There is no direct GAAP comparative to NRR. See "Use of Non-GAAP Financial Measures" for additional explanation.

5. Represents noncash stock-based compensation charges associated with restricted stock units granted and our Employee Stock Purchase Plan, exclusive of stock-based compensation expense related to Commvault's restructuring activities described below in Note 7.
6. Represents additional FICA and related payroll tax expenses incurred by Commvault when employees vest in restricted stock awards.
7. During fiscal 2026, we initiated two restructuring plans designed to optimize our cost structure, enhance organizational agility, align resources with strategic priorities, and reorganize our business technology function. These initiatives include workforce reductions, technology transitions, office lease closures, and the exit of operations in certain jurisdictions. The related charges primarily consist of severance and associated employee termination costs, stock-based compensation expense resulting from modification events, and office closure and exit charges. We expect both restructuring plans to be substantially completed during fiscal 2027.  
  
Restructuring charges incurred in the prior year relate to a plan initiated in the fourth quarter of fiscal 2024 and completed in fiscal 2025. These charges consisted of severance and associated employee termination costs and stock-based compensation expense resulting from modification events.
8. Represents noncash amortization of intangible assets.
9. During the first quarter of fiscal 2025, we entered into a settlement agreement resulting in a payment of approximately \$1.5 million which resolved certain legal matters. For the three months ended June 30, 2024, approximately \$0.7 million was recorded in general and administrative expenses and the remaining \$0.8 million was incurred in a prior period that is not presented in the Consolidated Statements of Operations.
10. These charges relate to acquisition and business development activities, including legal, accounting and advisory services. Management believes, when used as a supplement to GAAP results, that the exclusion of these costs will help investors and financial analysts understand Commvault's operating results and underlying operational trends as compared to other periods.
11. Represents the change in the estimated fair value of the contingent consideration arrangement related to the acquisition of Appranix, Inc.
12. During the first quarter of fiscal 2026, we finalized the sale of our corporate headquarters and entered into a lease for a portion of the premises. These noncash charges represent accounting adjustments for a \$1.3 million loss associated with the related lease terms and a \$0.8 million adjustment to reflect the final sale price of the assets resulting in a net charge of \$0.5 million recorded in general and administrative expense on the Consolidated Statements of Operations.
13. Represents noncash impairment charges related to our corporate headquarters.
14. These primarily legal and consulting expenses are related to our response in the second quarter of fiscal 2026 to a one-time security matter from the first quarter. Given the non-recurring nature of the matter, these costs have been excluded from non-GAAP results to provide a clearer view of ongoing operating performance.
15. The provision for income taxes is adjusted to reflect Commvault's estimated non-GAAP effective tax rate of 24%.

**Commvault Systems, Inc.**

**Recast Historical Financial Results  
(In thousands)  
(Unaudited)**

Beginning in fiscal 2027, Commvault will disaggregate customer support revenue on the Consolidated Statements of Operations between support associated with term-based and perpetual software license arrangements. Customer support includes support contracts associated with our software products, including software updates on a when-and-if-available basis, telephone support, integrated web-based support, and other premium support offerings. There is no change to total revenues, customer support cost of revenue or total cost of revenues for any quarter in fiscal 2025 or fiscal 2026. The recast results for fiscal years 2025 and 2026 have been prepared on the same basis as the fiscal first-quarter and full-year fiscal 2027 guidance presented earlier in this earnings press release.

Customer support revenue related to term-based software license arrangements ("Term-based support") will be included in total subscription revenue and recognized ratably over contractual terms that typically range from one to three years. Customer support revenue related to perpetual software license arrangements ("Perpetual support") will be recognized ratably over contractual terms, typically one year. There is no change to the underlying revenue recognition treatment for these line items.

The table below recasts the results for fiscal 2025 and 2026 using the Consolidated Statements of Operations lines that will be

effective beginning fiscal 2027.

	Fiscal 2026				
	Q1'26	Q2'26	Q3'26	Q4'26	FY'26

In addition, beginning in fiscal 2027, Commvault will recast Subscription ARR to include enterprise support, further aligning Subscription ARR with subscription revenue. Prior to fiscal 2027, enterprise support was included only in Total ARR. This change does not impact Total ARR. The table below recasts annualized revenue results for fiscal 2025 and fiscal 2026 to reflect this change, which will be effective beginning in fiscal 2027.

	Fiscal 2026			
	Q1'26	Q2'26	Q3'26	Q4'26
Total ARR	\$ 996,202	\$ 1,043,295	\$ 1,084,880	\$ 1,121,571
Subscription ARR	867,306	918,130	966,260	1,014,729

	Fiscal 2025			
	Q1'25	Q2'25	Q3'25	Q4'25

Total ARR	\$ 802,709	\$ 853,265	\$ 889,628	\$ 930,051
Subscription ARR	657,330	708,993	755,358	802,390
