

Where Resilience Meets AI: Commvault Announces SHIFT 2026

September 21, 2026

Conference features keynotes, AI attack and recovery simulation workshops, and immersive experiences that help enterprises put AI to work while building resilience in everything they do

TINTON FALLS, N.J., Sept. 21, 2026 /PRNewswire/ -- Commvault (NASDAQ: CVLT) today announced its annual customer and partner conference, [Commvault SHIFT 2026](#). Taking place in Nashville at the Gaylord Opryland Resort and Convention Center, November 9-12. This year's event will be the boldest in the company's history, providing attendees with the opportunity to explore and immerse themselves in the new rules of resilience – and it all starts with AI.

AI has changed the modern enterprise: accelerating innovation, advancing automation, and delivering greater intelligence and opportunity. It has also introduced new levels of risks, including rogue agents, compromised identities, and AI-enabled cyberattacks. In order to embrace the agentic world with confidence, recovery has become an operational requirement, with continuous resilience emerging as a top priority at the highest levels of every organization.

SHIFT 2026 is where organizations will experience a new world of recovery that's required to be resilient in the age of AI. It's where attendees will hear from 60 speakers – prominent thought leaders, security and AI experts, technologists, and practitioners – on how they can adopt AI while having the power to roll back and rapidly recover when the inevitable disruption hits, so they can operate continuously.

In addition to having a front-row seat on late-breaking innovations and announcements, attendees will participate in a full value-driven agenda including:

- **Recovery Hub:** Everything happens on the immersive show floor where attendees will walk through five distinct villages, each offering live demos of Commvault's latest offerings, theaters featuring speaking sessions and workshops, and partner showcases.
- **Expert Sessions:** Education is the cornerstone of SHIFT 2026, with hands-on learning opportunities, certification courses, and more than 50 expert-led sessions focusing on Identity Resilience, Cyber Recovery, and AI and Data Security.
- **Visionary Keynotes and Speakers:** Get real-time guidance and insights from executives representing Databricks, Deloitte, Microsoft, and NVIDIA; hear from the TIME + Commvault CISO of the Year; and attend engaging keynotes with Commvault's President and CEO, Sanjay Mirchandani, Chief Technology & AI Officer, Pranay Ahlawat, and Clumio Chief Technology Officer, Woon Ho Jung.
- **Partner and Customer Awards:** This year's event will include the **2026 Fearless Partner Awards**, recognizing partners taking resilience to the next level. The company will also unveil the **Commvault Impact Awards**, recognizing customers using Commvault to strengthen resilience, lead with confidence, and prepare for the future.
 - To share a story, customers can self-nominate in four categories: cyber resilience, cloud resilience, identity resilience, and AI innovation. Click [here](#) to nominate an organization by October 2.

How to Attend

SHIFT 2026 promises to be the go-to event for rethinking resilience. To attend live and take advantage of early bird pricing, register [here](#) by September 30. Registration will remain open through November 9.

About Commvault

Commvault (NASDAQ: CVLT) is a leader in unified resilience at enterprise scale. In a constantly evolving threat landscape, Commvault keeps customers ready by unifying data security, identity resilience, and cyber recovery, on one cloud-native, AI-enabled platform. Customers trust Commvault to conduct the fastest, most complete recoveries – not just their data, but their entire business. Purpose-built for the agentic enterprise, Commvault also enables organizations to safely embrace AI while protecting against AI-driven threats.
