

Commvault Showcases AI-Era Resilience and Recovery at NetApp INSIGHT 2026

September 24, 2026

Visit Booth #311 to learn how Commvault and NetApp are transforming cyber resilience from detection to clean recovery

TINTON FALLS, N.J., Sept. 24, 2026 /PRNewswire/ -- Commvault (NASDAQ: CVLT) today announced its presence at **NetApp INSIGHT 2026**, running September 29-October 1 in Las Vegas. Exhibiting at **Booth #311**, Commvault will be showcasing how, in conjunction with NetApp, the companies are helping organizations confidently embrace AI while strengthening resilience across the hybrid cloud.

Through live demonstrations and expert discussions, attendees will explore hybrid cloud protection, including capabilities that pair NetApp's AI-based threat intelligence with Commvault's automated response and recovery workflows. Together, via deep integrations between the NetApp and Commvault portfolios, these innovations help organizations identify threats earlier, recover faster, and keep critical applications, data, and AI initiatives secure, available, and ready for what's next.

Conference attendees can join Commvault and NetApp to learn more about modern approaches to addressing critical data, resilience, and storage challenges during the following sessions:

From Detection to Clean Recovery for Commvault and NetApp Environments

Tuesday, September 29 | 11:00 am – 11:45 am PT | Chairman's 364

Join Commvault's Chief Technology and AI Officer, Pranay Ahlawat, and experts from NetApp, including Vice President, Rohit Kapoor; Sandeep Manohar Nirikhi, Director of Product Management; and Chris Maino, Solution Architect Manager, for insights on how organizations can strengthen cyber resilience through early threat detection and rapid, clean recovery across NetApp environments.
