

CommVault Showcases eDiscovery and Legal Hold Features at Legal Tech 2009

February 2, 2009

Simpana 8 Software Enhancements Help Companies Mitigate Risk and Maintain Compliance

OCEANPORT, N.J., Feb 02, 2009 (BUSINESS WIRE) -- CommVault (NASDAQ: CVLT):

News Facts:

- [CommVault](#) will showcase the newest eDiscovery and Legal Hold capabilities in the latest version of its flagship Simpana software suite at [LegalTech New York 2009](#).
- Announced on January 26, CommVault(R) [Simpana\(R\) 8](#) software delivers an automated process and workflow engine that drives efficiencies in the data management process to help companies meet specific information management tasks quickly, enabling rapid risk and liability assessment for eDiscovery.
- CommVault's representatives will be at Legal Tech to discuss Simpana 8's comprehensive eDiscovery capabilities including the industry redefining global federated legal hold, automated legal hold, information classification for early case assessment, extended proactive eDiscovery for laptop/desktops and search navigation refinement for eDiscovery processing.
- Additionally, [CommVault and CaseCentral](#) will be at the event to promote the end-to-end eDiscovery solution the two companies are offering together, which reduces risk and cost and allows organizations to become more efficient in the eDiscovery process. This partnership offers complete and unique coverage for all the requirements of the EDRM model. Key benefits of the joint offering include:

- Managing legal preservation across all affected data across an organization
- Early case assessment based on the classification of client/matter information
- Segregation of client/attorney privileged content from future litigation
- Process analytics for comparative legal review
- Effective legal "ease of use" throughout all the stages of eDiscovery
