

CommVault and Simpana Software User Denver Health to Share Best Practices for Modern Data Protection at 2011 Gartner Data Center Conference

December 1, 2011

Experts from CommVault and Denver Health to Describe Modern Strategies for Improving Backup and Recovery Times, Reducing Data Management Costs and Accurately Predicting Future IT Spend

OCEANPORT, N.J., Dec. 1, 2011 /PRNewswire via COMTEX/ --

CommVault (NASDAQ: CVLT) -- As massive amounts of data are being created, regulatory and compliance requirements tighten, and virtual server deployments expand, traditional backup and recovery methods are unable to keep up with the increasingly complicated IT landscape and rapid data growth. Never has there been a more compelling time to modernize data protection across the enterprise. To that end, CommVault and Simpana software user, Denver Health, will be participating in a joint session at the upcoming [Gartner Data Center Conference](#), which is being held December 5 - 8, 2011, at Caesars Palace in Las Vegas, NV. Together, the two companies will detail best strategies for modernizing data management in order to increase business uptime, reduce complexity and improve IT operations.

News Facts

- CommVault and Denver Health will be leading a joint session on modern data protection for next-generation data centers at the 2011 Gartner Data Center Conference.
 - **Who:** Jeff Echols, Senior Director of Product Marketing and Business Development, CommVault, and David Boone, Director of IT, Denver Health
 - **What:** "Traditional Backup is Dead: Modernizing Data Protection for Tomorrow's Data Center." Server virtualization and datacenter consolidation projects are causing traditional backup and recovery to break under the weight of massive data growth. IT teams are being challenged to increase uptime, reduce complexity and meet compliance requirements while operating under strained budgets. Denver Health, together with CommVault, will detail how they modernized their data protection to:
 - Provide global reporting to predict future spending
 - Migrate from tape to disk to improve backup and recovery times
 - Reduce data management costs
- **When:** Wednesday, December 7, 2011, from 11:15 a.m. - 11:45 a.m. PST
- **Where:** Caesars Palace, Las Vegas, NV
